This permit is granted subject to the following conditions:

1. Sewer Pipe Size and Materials:
Size: 4" dia. for single family dwellings
5" dia. for multiple family dwellings.
2. No gutter, downspout, or other drain water shall be directed into the sanitary sewer.
3. Cleanouts shall be installed every 100 linear feet and at changes in horizontal alignment greater than 45 degrees.
4. Grade on service laterals shall not be less than 1% with no changes in vertical alignment greater than 45 degrees.
5. Pipe shall be installed with a straight line and grade and on a uniform bedding throughout its length.
6. Contractor or owner shall be responsible for locating and protecting all existing utilities.
7. After installation of the pipe and appurtenances and before backfill is placed, the Public Works Department shall be notified of the readiness for inspection giving at least four (4) hours notice. Phone 678-6114 or 678-6739 between 8 AM and 5 PM Monday through Friday.
8. Trench and backfill shall be as shown in diagram.
9. For STEP systems, refer to "Low Pressure Sewer Construction Standards" booklet provided by the City.

I certify that I have read and will comply with the above conditions.
